

#### EC-TYPE EXAMINATION CERTIFICATE

Equipment or Protective System Intended for use in Potentially Explosive Atmospheres

Directive 94/9/EC

- 3 EC-Type Examination Certificate Number : BAS02ATEX1290
- 4 Equipment or Protective System: XP95 INTRINSICALLY SAFE MANUAL CALL POINT
- 5 Manufacturer: APOLLO FIRE DETECTORS LIMITED
- 6 Address: 36Brookside Road, Havant, Hampshire, PO9 1JH
- 7 This equipment or protective system and any acceptable variation thereto is specified in the schedule to this certificate and the documents therein referred to.
- The Electrical Equipment Certification Service, notified body number 600 in accordance with Article 9 of the Council Directive 94/9/EC of 23 March 1994, certifies that this equipment or protective system has been found to comply with the Essential Health and Safety Requirements relating to the design and construction of equipment and protective systems intended for use in potentially explosive atmospheres given in Annex II to the Directive.

The examination and test results are recorded in confidential Report No.

#### 02(C)0238 dated 25 September 2002

9 Compliance with the Essential Health and Safety Requirements has been assured by compliance with;

EN 50014: 1997 + Amds 1 & 2

EN 50020: 2002

EN 50284: 1999

- except in respect of those requirements listed at item 18 of the Schedule.
- 10 If the sign "X" is placed after the certificate number, it indicates that the equipment or protective system is subject to special conditions for safe use specified in the schedule to this certificate.
- 11 This EC-TYPE EXAMINATION CERTIFICATE relates only to the design and construction of the specified equipment or protective system. If applicable, further requirements of this Directive apply to the manufacture and supply of this equipment or protective system.
- 12 The marking of the equipment or protective system shall include the following:-
  - EX II 1 G EEx is IIC T5 or EEx is IIC T4 (-20°C  $\leqslant$  T<sub>s</sub>  $\leqslant$  60°C)

This certificate may only be reproduced in its entirety and without any change, schedule included.

File No: EECS 0073/02/020

SI CHARLACH CHARLACH

This certificate is granted subject to the general conditions of the Electrical Equipment Certification Service. It does not necessarily indicate that the apparatus may be used in particular industries or circumstances.

## Schedule

Certificate Number BAS02ATEX1290 - Issue 7

#### 15 Description of Equipment or Protective System

The XP95 Intrinsically Safe Manual Call Point is designed to initiate an alarm on a fire detector system.

The Manual Call Point comprises an electronics circuit mounted on a single printed circuit board, an LED and a switch located in a plastic enclosure. Connections to external circuits are made to terminal block TB1 located on the PCB via a cable entry gland.

#### Input Parameters at Terminal Block TB1:

 $U_i = 28V$ 

 $C_i = 0$ 

 $I_i = 93.3 \text{mA}$ 

 $L_i = 0$ 

 $P_i = 0.67W$ 

#### 16 Report Number

None

### 17 Specific Conditions of Use

None

## 18 Essential Health and Safety Requirements

All relevant Essential Health and Safety Requirements are covered by the standards listed at item 9.

#### 19 Drawings and Documents

New drawings submitted for this issue of certificate.

Number	Sheet	Issue	Date	Description
55100-940CS	1 - 3	5	Sep 12	XP95 Intrinsically Safe Manual Call Point

## Issued 16 November 2012 Page 3 of 3

Certificate No.	Date	Comments
BAS02ATEX1290 25 September 2002		The release of the prime certificate. The associated test and assessment against the requirements of EN50014:1997 + Amds 1 & 2, EN50020:2002 and EN50284:1999 is documented in Test Report No. 02(C)0238.
BAS02ATEX1290/1	6 August 2003	To permit a minor variation to the identification label. Intrinsic Safety is not affected.
BAS02ATEX1290/2	18 January 2008	To permit the use of a new plastic enclosure which does not affect the original assessment. A new single drawing replaces the older separate drawings.
BAS02ATEX1290/3	11 February 2009	To permit minor drawing changes that do not affect the original assessment.
BAS02ATEX1290/4	12 January 2010	To permit minor drawing changes that do not affect the original assessment.
BAS02ATEX1290 Issue 5	11 July 2011	To permit minor drawing changes that do not affect the original assessment and a change to the T5 ambient temperature range. The range is now -20°C ≤Ta ≤+45°C.
		This issue of the certificate also incorporates previously issued primary & supplementary certificates into one certificate and following minor changes to the PCBs, confirms the current design meets the requirements of EN60079-0:2009 and EN60079-11:2007.
BAS02ATEX1290 Issue 6	30 August 2012	To permit minor drawing changes that do not affect the original assessment and to correct the input parameters.
BAS02ATEX1290 Issue 7	16 November 2012	To permit minor drawing changes that do not affect the original assessment and to confirm that the current design meets the requirements of EN600/9-0:2012 and EN60079-11:2012.

## Issued 14 September 2017 Page 2 of 4

Schedule Schedule

Certificate Number BAS02ATEX1290X – Issue 11

## 15 Description of Product

The XP95 Intrinsically Safe Manual Call Point is designed to initiate an alarm on a fire detector system.

The Manual Call Point comprises an electronics circuit mounted on a single printed circuit board, an LED and a switch located in a plastic enclosure. Connections to external circuits are made to terminal block TB1 located on the PCB via a cable entry gland.

#### **Input Parameters (all versions)**

#### Terminal Block TB1:

 $U_i = 28V$   $C_i = 0$ 

 $I_i = 93.3 \text{mA}$   $L_i = 0$ 

 $P_i = 0.67 \text{W}$ 

14

#### 16 Report Number

See Certificate History.

## 17 Specific Conditions of Use

1. The enclosure may constitute a potential electrostatic ignition hazard and must not be rubbed or cleaned with a dry cloth or mounted in dust laden airflow.

## 18 Essential Health and Safety Requirements

In addition to the Essential Health and Safety Requirements (EHSRs) covered by the standards listed at item 9, the following are considered relevant to this product:

Clause	Subject	Compliance
1.2.7	LVD type requirements	Manufacturer responsibility
1.2.8	Overloading of equipment (protection relays, etc.)	User/Installer responsibility
1.4.1	External effects	User/Installer responsibility
1.4.2	Aggressive substances, etc.	User/Installer responsibility

## 19 Drawings and Documents

New drawings submitted for this issue of certificate.

Clause	Subject	Compliance
1.4.1	External effects	User/Installer responsibility
1.4.2	Aggressive substances, etc.	User/Installer responsibility

## 19 Drawings and Documents

New drawings submitted for this issue of certificate.

Number	Sheet	Issue	Date	Description
55100-940CS	1 to 3	10	Dec 20	XP95 Intrinsically Safe Manual Call Point

Current drawings also associated with this certificate.

Number	Sheet	Issue	Date	Description
39117-518	1 of 1	6	May 19	XP95 I.S. Manual Call Point Certification Plate Label
39117-713	1 of 1	2	Jul 11	XP95 I.S. Manual Call Point Certification Label

Number	Sheet	Issue	Date	Description
43781-263	1 of 1	5	Jul 11	XP95 Intrinsically Safe Manual Call Point PCB Assembly
55000-960-967INCL	1 of 1	20	May 19	XP95 Intrinsically Safe Waterproof Manual Call Point General Assembly
55000-970-973INCL	1 of 1	3	Jul 11	Push Button Waterproof Manual Call Point General Assembly
55200-940CS	1 - 3	3	May 19	XP95 Intrinsically Safe Manual Call Point

The drawings are common to, and held with, IECEx BAS 12.0091X Iss 6.

Certificate No.	Date	Comments
BAS02ATEX1290	25 September 2002	The release of the prime certificate. The associated test and assessment against the requirements of EN50014:1997 + Amds 1 & 2, EN50020:2002 and EN50284:1999 is documented in Test Report No. 02(C)0238.
BAS02ATEX1290/1	6 August 2003	To permit a minor variation to the identification label. Intrinsic Safety is not affected.
BAS02ATEX1290/2	18 January 2008	To permit the use of a new plastic enclosure which does not affect the original assessment. A new single drawing replaces the older separate drawings.
BAS02ATEX1290/3	11 February 2009	To permit minor drawing changes that do not affect the original assessment.
BAS02ATEX1290/4	12 January 2010	To permit minor drawing changes that do not affect the original assessment.
D A 502 A TEV 1200	11 July 2011	To permit minor drawing changes that do not affect the original assessment and a change to the T5 ambient temperature range. The range is now -20°C $\leq$ Ta $\leq$ +45°C.
BAS02ATEX1290 Issue 5		This issue of the certificate also incorporates previously issued primary & supplementary certificates into one certificate and, following minor changes to the PCBs, confirms the current design meets the requirements of EN60079-0:2009 and EN60079-11:2007.
BAS02ATEX1290 Issue 6	30 August 2012	To permit minor drawing changes that do not affect the original assessment and to correct the input parameters.
BAS02ATEX1290 Issue 7	16 November 2012	To permit minor drawing changes that do not affect the original assessment and to confirm that the current design meets the requirements of EN60079-0:2012 and EN60079-11:2012.
	17 April 2013	To permit the introduction of an alternative XP95 Manual Call Point, defined by drawing 55200-940CS, which additionally carries the following marking:
		$\textcircled{E}$ II 1D Ex ia IIIC T135°C Da (-20°C $\leq$ Ta $\leq$ +60°C)
BAS02ATEX1290X Issue 8		The input parameters for all variants are identical to the original parameters and are as stated above.
		To confirm that a special condition of safe use applies to both designs of Manual Call Points; this states that the enclosure may constitute a potential electrostatic ignition hazard and must not be rubbed or cleaned with a dry cloth or mounted in dust laden airflow.
