

## Manual Alarm Stations and Accessories

SigCom's metal pull stations are ADA compliant and available in a variety of colors and labeling, suitable for most applications. Weatherproof and Explosion Proof models are available. The Explosion Proof stations are rated for hazardous atmosphere classifications and Marine rated. Our Sentry™ line of ADA compliant station covers provide protection for the stations.

### SG-42SK Series Pull Station

The SG-42SK Series are single contact, key-reset, manual pull stations designed to meet the requirements for many applications. They are constructed from a rugged, but lightweight, die-cast metal alloy for increased performance and longevity. This series of stations is available in single action (PULL lever) or dual action (PUSH bar and PULL lever) models.

- Single or Dual Action
- Screw Terminal Connections
- Gold Plated Alarm Contacts
- Surface or Weatherproof Back-Boxes Optional
- Deeper Back-Boxes Available
- NY Stripe Available (SG-33SK Series)

### Spectrum Series Manual Pull Stations

The SPECTRUM Series is a family of die-cast, metal pull stations designed to meet special application requirements such as: weather alert, hazmat spills, police call, medical emergencies, door release, fire suppression, etc.

- Single or Dual Action
- Screw Terminal Connections
- DPDT Gold Plated Contacts
- Color Matched Surface or Weatherproof Back-Box
- Consult Factory for Available Colors and Labeling

## Manual Alarm Stations and Accessories

### SGX-32 Series Explosion Proof

The solid design and rugged construction of the SGX-32 station makes it ideal for use in harsh operating environments and hazardous locations. These devices have a NEMA type 4X rating for operation in extreme weather conditions and plant wash down applications. They are also UL Marine listed for operation in corrosive environments.

- Explosion Hazard Classifications
  - Class I, Div. 1, Group B, C and D
  - Class II, Div. 1, Group E, F and G
  - Class III, Div. 1
- Marine and NEMA Type 4X Rated
- DPDT Switch with Screw Terminal Connection
- Single or Dual Action
- DC and AC Voltage Contact Ratings
- Key Reset - Standard
- Stainless Steel Options Available
- Special Colors and Application Labels Available

### Sentry™ Manual Pull Station Cover

The SENTRY™ Station Cover is a rugged, poly-carbonate cover (UV stabilized) used to help protect manual pull stations from accidental or malicious false alarms, vandalism, and weather. It is available in a variety of configurations to satisfy most application requirements.

- Bottom Hinge Allows Easy Access for:
  - Alarm Activation with One Hand
  - Servicing Station/Alarm Module
- Tough Poly-Carbonate
- NEMA 3R Rated Optional Weatherproof Kit and Back Plate
- Protrudes Less than 4" per ADA Requirements
- Raised Lettering and Braille Instructions on Cover
- Optional Tone to Deter Malicious False Alarms
